

7 April 2018

Most Esteemed Dr Eduardo,
Salve Maria!

I write in the hope that this email finds you in good health and in the good graces of Our Lady and Our Father and Founder.

I wish to congratulate the *Plinio Corrêa de Oliveira Institute* on the outstanding letter of support sent to Cardinal Joseph Zen, an action truly worthy of a Magnificat.

In union with every other faithful member of the Group, all the sons of Sr. Dr. Plinio, I joyfully and fully endorse and wholeheartedly support this action, the letter itself, and the campaign in support of it.

As president of *Young South Africans for a Christian Civilisation (Y.S.A.C.C.)*, the founding of which Sr Dr Plinio personally initiated and oversaw some 34 years ago, I unhesitatingly express the support of this organisation and of the Group in South Africa, both to this letter and to this campaign. To this end I attach a letter of this support herewith.

Unfortunately I must mention, however, that an oversight occurred in that I was not notified of this letter to Cardinal Zen or invited to have *Y.S.A.C.C.* participate. I only found out about it long after the fact.

I do hope this was merely an unintended error, yet find it very lamentable and concerning that this should have occurred – such an omission in such an important matter. I cannot know whose responsibility that might have been, but I sincerely hope this can be remedied in the future of such actions which include the various autonomous Groups around the world together.

Because I find this truly lamentable, I therefore now affirm, once again, with enthusiasm, both my personal support and the support of *Young South Africans for a Christian Civilisation* for the letter from the *Plinio Corrêa de Oliveira Institute* to His Eminence Joseph Cardinal Zen Ze-kiun.

I completely trust that our name will now be listed, with this letter, among those of our sister TFPs, and those listed other peripheral like-minded organisations whose privilege it is to find themselves associated with the Counter Revolution of Sr Dr Plinio's family of organisations, his "beloved" TFPs.

In closing I convey to you my esteem. I pray Our Lady grant you every grace and all courage to carry forward this blessed fight, with ever more wisdom in the care for the members of the Group and help for the various Groups and organisations & entities for which they carry responsibility in their own respective countries.

May this campaign for Cardinal Zen be a blow against the demon and its Revolution and a glory for the Holy Church and the Counter Revolution!

With cordial and fraternal greetings,
In Jesu et Maria,

David Nash

Re Letter to Cardinal Zen

7 April, 2018

Dear Dr de Barros Brotero,

On behalf of *South Africans for a Christian Civilisation* I express our heartfelt support for the letter and campaign of the *Instituto Plinio Corrêa de Oliveira* and confirming our joining with you in everything stated in the letter.

Thus we unite ourselves in support of the heroic stance taken by Cardinal Zen.

Our prayers are with the greatly suffering and persecuted but faithful underground Church of China, and with this campaign to bring this plight to light in the world.

Wherever we are able to contribute to this campaign in South Africa, we will certainly do so.

We pray Our Lady guide this work with her wisdom, that it may alleviate the suffering and strengthen the resolve of these heroic Chinese Catholics. I enthusiastically congratulate the *Instituto Plinio Corrêa de Oliveira* for this excellent initiative. May God bless it abundantly in this endeavour.

Yours sincerely,
In Jesu et Maria,

David Nash
President
Young South Africans for a Christian Civilisation
